FTTH Wall Outlet GP-X

Description

GP-X 4 Fiber Compact Termination Box is designed for use in residential and
business applications.
The wall box enables the installation of either four SC pigtails or eight LC pigtails, which connect to adapters at the base of the unit.
The unit can quickly be installed within an office, house or communication room
environment.

Features

• Ergonomic design.
• Ability to allow cables to enter from rear or bottom of the unit.
• All fibers are positively managed to maintain a 30mm minimum bend radius.
• Optional Removable rear entry cable management.
• Flip tray to allow access to pigtails and cable entry.
• Compact, low profile, wall mounted unit used for small and large premises.
• Removable cover for easy access.
• Flame retardant LSZH material.
• Patchcords exit unit on bottom face and are protected by two protection covers.
